

# MYOB Accountants Office

## Tax

Improve your practice productivity. Accountants Office Tax is packed full of features to help your practice become more productive. As a cornerstone product in the Accountants Office suite, it reduces the time you spend preparing tax returns, freeing you up to offer your clients more value-added tax consulting services. Tax supports all major ATO forms and Activity Statements, and it automatically shares data between worksheets, forms and other returns to get you lodging faster.

Here are just some of the many reasons why accounting professionals choose MYOB software to lodge over 5,000,000 tax forms every year.

### Get it right the first time

Tax is compliant with the ATO's practitioner lodgment service (PLS) and is built around a validation engine specifically designed by the MYOB team to exceed the ATO's minimum requirements. Accounting firms using Tax achieved an acceptance rate in excess of 99% during 2016/2017 lodgment programs. This means you can be confident the forms you lodge are complete and compliant before you press the button.

### Never lose sight of your lodgment status

Homepages help you and your team monitor tax return lodgments with great ease. Tax provides a standard set of tax views to meet your practice needs. You can easily view and filter data and drill down to access more information about the return without having to run a report.

### Monitor and manage your business easily

Tax has a flexible and easy-to-use tool for reporting across your tax database. It has a range of standard reports to track lodgments and to data mine the most common income and expense items. You can use this tool throughout the year, to help you get the most out of your tax data for monitoring, managing and marketing your business.

### About Accountants Office

Ideal for a sole practitioner or smaller practice, MYOB Accountants Office suite pulls together the most common tools you need and links them seamlessly. Standardised configuration, reporting and simplified workflows mean you can spend more time focused on your clients. Accountants Office gets the job done – faster, easier and smarter.
