

# MYOB Essentials

Simply powerful accounting software.

## Everything you need to simplify your business

MYOB is simply powerful accounting software that's easy to use, intuitive and helps you get more done. Easily stay on top of tasks, get paid faster, manage your employees, keep in control of your finances and much more.

### Understand how your business is doing in real time

The dashboard helps you to understand how your business is doing in real time. MYOB Essentials shows you how much money you have in the bank, your expenses, who owes you money and how much GST you need to pay.

### Get paid faster with online invoicing

Let customers pay how they want by giving them the ability | to pay instantly via AMEX, Visa, MasterCard and BPAY.

### Get help when you need it

Sharing your file with your accountant or bookkeeper means they see exactly what you see. So, if you need help, they can give you advice on the spot.

### Save time and effort by linking your bank accounts

Have your bank transactions delivered into your MYOB Essentials file with accurate, secure bank feeds. Automatic matching rules can then be set up for regular transactions, like fuel purchases.

### Take the stress out of staying compliant

MYOB Essentials records all the data your advisor needs to help you meet your reporting requirements for GST and other levies. Secure online storage of your file also helps protect your records against damage or loss.

### Never worry about lost receipts again with the Capture app

The Capture app, part of your Essentials subscription lets you sort expenses, and upload receipts direct to your software with your phone. We even give you a helping hand and match them to your bank transactions.

### Payroll that grows with you

Easily meet your Single Touch Payroll (STP) obligations and automatically calculate tax and superannuation with MYOB payroll. Stay on top of your obligations knowing that every time tax law changes, your software is automatically updated. Plus, effortlessly let your employees fill out timesheets and see payslips on their mobiles.

### Valuable business insights with MYOB reports

With your business data just a few clicks away you can create dozens of useful reports for year-to-date (YTD), payment summaries, turnover, bad debt, liabilities, deductions, accruals and more.

### Essentials add-ons

Access a wide range of third party tools that work seamlessly with MYOB Essentials to better help you manage a range of business functions such as inventory management, rostering, point of sale and forecasting.
