

What is Kounta?

POS | Point of Sale by Kounta

Cafe & Restaurant POS System

Easy to use. Simple to manage. Powerfully efficient. Get the POS with a near zero learning curve, crafted specifically for cafes, restaurants, bars, and other hospitality businesses.

A modern-day point of sale that's intuitive, quick to set up and simple to navigate. New staff can familiarise themselves with Kounta's layout in minutes, whilst the savviest of operators can charge ahead with detailed reports, powerful service features, and seamless inventory management. Making changes on the fly is as easy as a few quick taps of your fingers, and our support team is available to you 24/7. Plus, Kounta connects seamlessly to the payment, accounting, ordering and loyalty tools you know and love.

Simplicity and efficiency. It's why the best brands in the industry like Pablo & Rusty's Coffee Roasters, Gelato Messina, Chat Thai Restaurant Group, and Young Henry's Brewery all swear by Kounta.

But hey, don't take our word for it. Ask around and you'll quickly learn why your hospo friends, peers, and yes... competitors.... love Kounta. We're serious. Go ask. :)

Our Most Loved Features

Hyper Efficient Workflows

Capture even the most tedious orders with 100% accuracy. Integrate your payment terminal for faster service and less keying errors. Send production dockets directly to the kitchen to prevent lost orders and lost time.

See Your Metrics Anytime, Anywhere

Real time data at your fingertips. Sales by hour, average guest spend, and top performing products & staff are just the start. Kounta Insights will help you take action on the most important metrics in your business, to capture immediate opportunities for cost savings and revenue growth.

Ingredient Level Inventory

Stock levels automatically update as you purchase, produce, and sell. Par levels, stock on hand and automated recurring orders help you easily stop over-ordering in its tracks while streamlining your back of house processes. It's the simple way to keep wastage and cost of goods sold in check.

Table Management

See table statuses at a glance, which tables are waiting to order and who needs the bill. Improve spend per table per hour and make service smoother than ever.

Account Sales & Bar Tabs

Let customers pay on account or tab quickly. Send regular statements to your key customers to ensure accounts get paid.

Wastage

Record wastage reasons as they happen from the POS. Because what gets measured gets managed.

Auto Promos, Happy Hours, & Weekend Surcharges

Set times, discounts, or surcharges and have them auto apply at exactly the times you want, so no one forgets which promotion is still on.

Time & Attendance

Track your staff hours directly in Kounta, or integrate with Deputy or Tanda to use sales data to roster precisely the amount of people you need - no more, no less.

Guest Tracking & Customer Management

Track covers, or get more advanced with loyalty add-ons to build even deeper relationships with your customers.

Courses

Group orders by course and send them to the kitchen precisely when each course is ready to be served. Less work for your team. Less cold meals for your customers.
