

What is Servicem8?

ServiceM8 is a front-end job management solution for trade & service businesses like electricians, plumbers & cleaners. With smart scheduling, easy client communication, quoting, job notes & photos, digital forms, online bookings & automations, ServiceM8 frees businesses from paperwork to run an organised, productive & professional operation. Integration with MYOB forms an end-to-end field service package.

Key features:

- + Manage jobs, staff & customer communication, anywhere.
 - + View staff locations and job status in real time.
 - + Schedule work to staff, and respond efficiently to urgent jobs.
 - + Access client and job details in the field, and search job history.
 - + Email or text customers from their job card, with professional templates.
 - + Complete checklists and capture job notes, photos, videos & signatures.
 - + Create PDF quotes, invoices, reports & certificates on site.
 - + Accept card payments, on-site & online.
 - + Automate booking reminders & quote follow-ups to clients.
 - + Accept online bookings & enquiries.
 - + Schedule recurring jobs for repeat work & contracts.
 - + Catalogue client assets & track their service history.
 - + Connect with MYOB to streamline accounting & reduce administration.
-
